

Trip 4 – FORKS OF THE SUN RIVER 7 days OPEN
July 22 - 28

This trip follows the Sun River from the upper North Fork to the South Fork. You visit three different campsites. This country is quite open and offers great day riding as well as superb fishing. There is excellent fishing at each campsite and we stay at each campsite for a day to allow as much opportunity to explore and fish as possible. The rides from each campsite are generally pretty easy and the views along the broad valley of the Sun are fantastic. For the non-fisherman, there are excellent opportunities for riding to some interesting spots, as well as probably the best day hiking of all of our summer trips.

Trip 5 – FORKS OF THE SUN RIVER 7 days OPEN
July 28 – August 3

This trip is the reverse of the previous trip – from the South Fork of the Sun River to the upper North Fork to the Sun. You visit three different campsites. This country is quite open and offers great day riding as well as superb fishing. There is excellent fishing at each campsite and we stay at each campsite for a day to allow as much opportunity to explore and fish as possible. The rides from each campsite are generally pretty easy and the views along the broad valley of the Sun are fantastic. For the non-fisherman, there are excellent opportunities for riding to some interesting spots, as well as probably the best day hiking of all of our summer trips.

Trip 6 –CHINESE WALL TRIP 7 days OPEN
August 7 – August 13

This trip explores the Chinese Wall by riding along it and opportunities to spend a day up close to the Wall exploring. This is a great scenery trip with some limited fishing opportunities. We visit several different campsites. The majority of the time is spent in the high country. Just about every day offers outstanding views. The day we ride along the Wall is easily the most scenic of any single day on our summer trip schedule. While the Chinese Wall is the highlight of the trip, the lower Sun River valley and the upper reaches of the Continental Divide near the Wall are spectacular as well.

Trip 7 – GATES PARK / SUN RIVER 5 days OPEN
August 16 – August 20

This trip is the last fishing trip on the legendary Sun River for the season. The North Fork is about ¼ mile from camp, and on this part of the river a person won't see too many other people while on the river. The dry fly fishing this time of year is just exception with a lot of terrestrial activity. There are also many non-fishing activities possible from this campsite. These include day rides to the Chinese Wall and Sock Lake, Bear Top Lookout, or easy and relaxing rides along the Sun River.

Trip 8 – MIDDLE FORK FLATHEAD 7 days OPEN
August 24 – August 30

This is a traveling trip which starts on the east side and crosses over the Continental Divide and spends most of the trip on the upper reaches of the Middle Fork of the Flathead River and its tributaries. You visit multiple campsites. This country is quite open and offers great day riding as well as occasional fishing opportunities. While this trip is not targeted towards fly fishing, if there group has that interested we can slightly modify our campsites to provide additional opportunity.. Each campsite affords much opportunity to explore. The rides from each campsite are longer than the Sun River trips as the Middle Fork is a more rugged valley.

This is our 2017 tentative schedule. If you see a trip you are interested in and are wondering about the different opportunities on the trip, give us a call. These descriptions are very limited and we can elaborate on the fishing, riding, and hiking more if you give us a call.

All of our trips take place on National Forest lands. We are permitted and bonded by the federal government to operate on the Lewis & Clark and Flathead National Forests under outfitter license #558
