Summer Horse Packing Trip Schedule 2025

Trip 1 – SPRINGTIME IN THE ROCKIES 5 days Open
June 23 – June 27

Spring time in the mountains is a colorful event. The mountain peaks will be covered with snow and the lower country will be a lush green. We will stay at several campsites along the Sun River. Among the highlights of this trip are Route Creek Pass, Biggs Creek Pass, and the vast open meadows of the upper Sun River. This trip is the best of all the trips for seeing big game wildlife. We can see elk, goats, moose, and bear this time of year before the summer's heat and more visitors disperse them to higher ground. The countryside at this time is resplendent in natural color with most of the wildflowers in full bloom.

Trip 3 – GATES PARK EXPLORATION 5 days Open
July 11 – July 15

This trip visits our Gates Park campsite on the upper Sun River and generally kicks off the peak fly fishing season. There are multiple opportunities for the horseback riders and hiking enthusiasts as we have the option to take several day hikes and day rides every day we're in camp. The options range from visiting a fire lookout tower perched atop a mountain peak (day ride) to riding through the lush valleys and hidden meadows along the river bottoms. For the fishing enthusiast the waters have cleared by this time and the summer heat is bringing out the terrestrials which the trout aggressively rise for all day long.

This trip is designed for the fishing enthusiast. We usually stay at our beautiful Gates Park campsite on the North Fork of the Sun River. There are excellent fishing opportunities from either camp. The North Fork is about 1/2 mile from camp, and on this part of the river you won't see too many other fishermen. There are also many non fishing activities possible from this campsite. Trip 6 – SOUTH CHINESE WALL 8 days 5 available
August 6 – August 13

This trip explores the Chinese Wall by riding along it and opportunities to spend a day up close to the Wall exploring. This is a great scenery trip with some limited fishing opportunities. We visit several different campsites. The majority of the time is spent in the high country. Just about every day offers outstanding views. The day we ride along the Wall is easily the most scenic of any single day on our summer trip schedule. While the Chinese Wall is the highlight of the trip, the lower Sun River valley and the upper reaches of the Continental Divide near the Wall are spectacular as well.

Trip 7 –GATES PARK / SUN RIVER 5 days Open
August 17 – August 21

We often get requests from mid-summer adventurers and fishermen for shorter trips in mid-August. Thus, we schedule a couple of 5 day trips into our beautiful camp on the North Fork of the Sun River. Mid-August is often a peak fishing time, so this is a great trip for the dry fly enthusiast. We can access multiple stretches of river any given day to spread people out and give new stretches of water to ply. For the non-fishing adventurer, there are many other options – more than can be done in the time available. These include day rides to the Chinese Wall and Sock Lake, Bear Top Lookout, Biggs Creek Meadows, or easy rides along the Sun River in any direction.
